FOLLOW UP

Required:

Yes

Date:

30 Jun 2026

Reason:

Review symptoms and lab reports

TREATMENT PLAN & ADVICE

- Take medicines as prescribed and complete the course.
- Drink plenty of warm fluids and stay hydrated.
- Take rest and avoid cold, oily and spicy food.
- Wear mask if going out and maintain good hand hygiene.
- Consult immediately if fever > 102°F or symptoms worsen.

DOCTOR ADVICE

- Monitor temperature twice daily.
- Use a humidifier or steam inhalation for relief.
- Avoid smoking and alcohol.
- If symptoms persist more than 3 days, consult doctor again.

ADDITIONAL NOTES (Doctor)

Patient advised general precautions and hydration.
